

# COMPLETE SOLUTIONS ACCORDING EUROPEAN MEASURING INSTRUMENTS DIRECTIVE 2014/32/EU

## The complete solution from a single source:

As a competent manufacturer of complete measuring systems for liquids other than water, in accordance with the European Measuring Instruments Directive (MID) 2014/32/EU (formerly 2004/22/EC), we have the required type examination certificates and OIML certificates for all metrological relevant devices and components.

We are certified by the PTB in accordance with MID / Module D and are therefore entitled to place measuring systems on the market in accordance with Module B / D.

## Our range of services:

- Customer-related "MID" consulting on site
- Determination of requirements
- Application to PTB according to Module B
- Conception, construction, commissioning, calibration and sealing of the measuring system
- Approval according to module D
- Preparation of declaration of conformity incl. documentation
